Manitoba's total population was estimated at 1,207,959 persons as of July 1, 2008, up 4,803 persons from the April 1, 2008 estimate. Population growth continues on an annual basis, with Manitoba's increase since July 1, 2007 estimated at 14,445 persons, or 1.21%. Manitoba's July 1 to June 30 growth of 14,445 persons is the best since the 1982 to 1983 period, when it was 14,528 persons. A large portion of Manitoba's estimated population gain of 14,445 persons over the past 12 months was the result of immigration (10,741 persons). The immigration flow of 10,741 persons from July 1, 2007 to June 32, 2008 is second only to the July 1, 2006 to June 30, 2007 period (10,790 persons).

We recorded an estimated net loss of 394 persons to other provinces through interprovincial migration in the first six months of 2008, an improvement of 1,252 persons from the net loss of 1,646 persons in the first six months of 2007. In the first half of 2008, Manitoba gained population on a net basis chiefly from Ontario (587), Quebec (164), Saskatchewan (78) and Nova Scotia (71), while most of the losses were to Alberta (-653) and British Columbia (-526).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 5,126 persons in the first half of 2008. This net gain of 5,126 persons marked an increase of 749 persons from the net migration gain of 4,377 persons in the first half of 2007.

Net international migration for the first six months of 2008 was 4,563 persons, down from 4,854 persons in the first six months of 2007.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 1971/72 onward. This MBS report incorporates all revisions.

Table 6 presents the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Table 1.
